REFLECTIONS 2024

“Imagination is more important than knowledge. For knowledge is limited, whereas imagination embraces the entire world, stimulating progress, giving birth to evolution.”

- Albert Einstein

Dear Parents,

“Educational Fair” is one of the most prestigious and flagship events conducted at our school every year.

LIS aims to provide an effective platform to students to explore, express and experience their creativity through this Educational Fair.

This event gives all our students an opportunity and platform to showcase their inner talents on a wide variety of subjects from the academic stream as well as other areas of the child’s interest (which might be away from their regular Academic learning) through working models, charts, presentations, and much more.

LIS encourages the Pragmatic approach in the teaching and learning process. The students are encouraged to hone their life skills and learn values from participating in this exhibition.

Note: We are planning to organize the Annual Arts & Science Exhibition (Reflections - 2024) in the First Week of June 2024.

Important Information:

1. All the projects should be labelled with student name, class & section, subject and project name.
2. A small write-up about each project on an A-4 size paper is essential.
3. Students can make/present a maximum of 2 projects.
 - 1 project from core subjects (English, Math, Science, SST, Second Language and Third Language)
 - 1 project from Graded Subjects.
4. Topics of the projects will be provided by the class teacher by 7th May 2024.
5. All projects should be submitted by Wednesday, 5th June 2024.
6. Best Projects from each category will be awarded by the School Managing Committee and the students will also be given academic points in the internal assessment of that subject.

Best regards,

Principal
